OP-ALPHA

PIONEERS IN TECHNOLOGY

Leaders in Efficiency

A new Steel model for more extreme challenges

A GREATER ROBUSTNESS

The body is made of Hardox 500 Tuf; the metal sheet Hardox 500 Tuf stands out for its wear resistance providing an excellent robustness, durability and guaranty.

POLYVALENT CARGO

Suitable for the majority of Public Works. It enables the transport of materials with different densities: ARIDS, PLASTERS, MUDSTONES, BALLASTS, AGGLOMERATES, ETC.

Design and manufacturing process Granalu 100%
= Aluminium Chassis + Steel Tipping body

TARE: 5.300 Kg
